Slavery is a sin—a great sin; I'm not apposed to emancipation, But as long as the negro is within The borders of this mighty nation. He should not be free: Transport him beyond the sea."

This is the song, sang with a nasal twang, to catch Northern votes. Lately various politicians have been ing to the singing school of abolitionism to learn the do, ra, me fu sol la," of this beautiful ditty. Lately, o, the distant echo thereof has been heard in Texas. Now we say for the final satisfaction of all concerned that there is no more chance of Western Texas becomng a free State than of the "Cotton Plant" advocag trade with New York.

Mark you politicians. How suddenly he has become national." Why? Mark you Senator. How soon his heart has become large enough for the " whole ountry." Why? See that elaborate individual who has been allu led to by a Vermont paper, as possessing 'sound views"-how soon he becomes cautious !-Why is all this? The South is the weaker power, and she is in a most excellent position to be betrayed. Does the cap fit any one? We do not know, but it is revolting to witness the abjectness of those, who would sell their birth-right for a mess of pottage.

No, the division of Texas, would demonstrate for the hundredth time, that even the non-slave holders regard the " peculiar institution " as a blessing. This mawkish twadle about "necessary evil" is all stuff. h is so in regard to Texas, and any one taking any interest in the subject, can soon satisfy himself that we are right. The institution of slavery is a blessing to the negro-the foundation of our Republic (for we deem it the only conservation left)-the chief promoter of comfort and christianity in the world, and above all, a Divine institution. We are not one of those who compromise our honest convictions about slavery. We never expect to be President, and therefore can he honest. The division of Texas, will not at all effect slavery. There are more slaves now in the world than at any previous period. The institution is fixed. Its destiny is fixed and all the free-soil pre-disposition of ambitious politicians cannot effect it. A day may come, when the "slave-power" of these United States, in conjunction with capital elsewhere, may strike down at one fearful blow, the pride and prosperity of those, who now feast upon the wealth of that slavery, they may be surprised and die. "Grossly-full of bread."

### The French in Sonora.

Our readers are already aware that a number of ten the Mexican General Blance, seized upon Sonora, and formally annexed it to France. This proceeding great esteem, seems to have been a pure outrage, justified by no circumstance whatever. Boulbon had been employed by the Mexican Government, according to some accounts, to make war on the Apaches. He succeeded in driving off the Indians from a circuit of fifty leagues, when he was called upon by the military commandant of lows: Sonora, who certainly, we should suppose, was his August 10th, 1781 -Gen Washington's letter orders of Mexico, to render an account of his proceed- On Public Service. ngs. Instead of obeying, he issued a proclamation, in which he threatened to punish the commandant .-(Blanco,) and advised the inhabitants to remain neutral, as he had a force strong enough to accomplish the Mexican forests, he continued his march to Arispe. Blanco had been routed, and that the conqueror had had annexed the State of Sonora to France, seems to be unquestionably true.

That France cannot hold this acquisition, we hold to be indisputable. She has not held any colony, with the exception of a few insignificant West India islands and Algiers, beyond the sea, nor will she ever be able to hold them, without the consent of this country and Great Britian, and that consent, so far as Sonora is concerned, she never will get. Look at the possessions which she has either lost in war, or been obliged to sell, to keep them out of her enemy's hands. Where is Canada? Where is Louisiana? Where is Algeris, after declaration of a war against Great Britain? The French are a gallant people, as their whole in a late communication from Dr. Wright, of the Neshistory amply testifies. They are, indeed, the most torian mission to the American Board, and a letter extraordinary military nation since the Romans. There are, doubtless, as many now, and to them it would be delightful to hear that the United States had determined against this disposition of the Mexican teritory. They would sweep away the conquerors, before they should have ascertained that they were coming down upon

Of course this government will never consent to this occupation, and it has but to say the word in order that an end may be put to it. It has been the policy of the government, ever since the Monroe declaration, or if it has not, it should have been, to allow no Eu ropean power to plant new colonies, or to obtain a stronger foothold in America. This policy must be adhered to. It is one which the whole people demand, and is one which no Administration can resist. France must seek for conquests, if Napolean III. thinks they are desirable, in Europe. She cannot be permitted to make them here. Nobody annexes in America but

HENRY FIFTH OF FRANCE. -- We notice among the tems of political intelligence brought by the last European steamship a protest of the Count De Chambord, who stiles himself Henry Fifth, the legitimate Bourbon heir to the throne of France, against the proclamation of the Empire by Louis Napoleon. The Count de Chambord is the son of Charles the Tenth, who was deposed from the French throne in 1830, at the time of the revolution in that year that elevated Louis Phillippe to power. MEXICAN MUSTANG LINIMENT. THE properties of this Liniment have never been equalled for the cure of Rheumatism, Neuralgia, Sprains, Burns, Bru see Swellings, Stiff Joints, Piles, Broken or Caked Breast, Sore Nip-ples, Old Sores, or Pains in any part of the body an external ap-plication can reach. We have hundreds of certificates from those that have been cured of these diseases, and also that have had lorses cured of Ringbone, Spavin, Fistulo, Wind-galls, Follevel; Founder, and any enlargement of bone or muscle. Dr. A. G. Bragg-Sir: My little child, when one month old, was attacked with Scald Head, and for two years I have employed the cest medical aid in the city without any benefit. One month since its head was a solid cake or sore. I purchased one 25 cent bottle of your Mustang Liniment to cure a sore I had on my nose and upper lip, which had been so for six months—it cured it immed ately. I used the remainder of the bottle on the child's head, and it is nearly cured—one bottle more will, without doubt, perfectly cure it.

28 Vine st., St. Louis, June 28th, 1852. This is to certify that I have used the Mexican Mustang Lin' nent recently in a very severe case of Sprain—the right hip was to badly sprained and bruised that fears were entertained it was four days, when the soreness and pain were all gone and the hip joint was well. I have also used the Liniment for the Piles. It effects were wonderful. Free application night and morning for a week has perfectly cured inc.

64 Dunne street, New York, June 25th, 1852.

I have used the Mexican Mustang Liniment for some time in my stable, upon my horses, in cases of Sprains, Bruises, Galls, Strain and Sores of different kinds, incident to a large number of horses I used it upon a horse which had been saddle-galled for nearly a year. I had tried many remedies, and one in particular that I had been in the hab t of using for years, and had generally proved successful. Nothing appeared to give it any relief until I tried the Mustang Liniment, which cured it in a very short time. I consider it an invaluable remedy, and would not be without it. sider it an invaluable remedy, and would not be without it.

MA, CROUP, CONSUMPTION, in an early stage, and for the re-lief of the patient even in advanced stages of that fatal disease.

It combines in a scientific manner remedies of long esteemed value, with others of more recent discovery, and besides its sootling and tonic qualities, acts through the skin gently, and with great efficacy for the cure of this class of diseases. Certificate from Dr. John Addison, physician to the Baltimore Southern Dispensary.

Having been made acquainted with the ingredients which enter into the composition of your "ANODYNE CHERRY EXPECTORANT," and having also made trials of its virtues, I have no hesitation in recommending it to the confidence and patronage

public, as a most valuable medicine in the treatment of the various diseases for which it is intended. A number of the most respectable physicians, to whom we have communicated a knowledge of the constituents of these medi-cines, have been pleased to favor us with their opinions [some of them in writing] that they are the best remedies they have ever been acquainted with for the cure of the diseases for which they OPINION OF DR.
